ORGANIZATIONAL DEVELOPMENT COMMITTEE

Stan Weisser, RPh, Chairperson, Board President
Randy Kajioka, PharmD, Board Vice-President

a. FOR INFORMATION: Budget Update/Report

Summary of Organizational Development Committee meeting held on December 3, 2012.

1. Budget Report for 2012/13

Attachment 1

The budget year began July 1, 2012 and will end June 30, 2013. The board's spending authorization for the year is \$15,289,000.

Attachment 1 includes budget charts detailing the board's expenditures and revenue for the current fiscal year. The board revenue thus far has come primarily from license fees, about 80%.

The board has expended just under \$7,000,000 (over 47%) during the first six months of the new fiscal year, primarily in personnel services. Further, based on projections, it is estimated that the board will exceed its line item authorization for Attorney General Expenses by over \$400,000. Board staff is working closely with the DCA and the Attorney General's Office to ensure funding through the end of the fiscal year. Curtailing the board's enforcement efforts is not an option without significantly undermining the board's consumer protection mandate.

2. Fund Condition Report

Attachment 2

According to a fund condition report prepared by the department (**Attachment 2**), the board will have the following fund conditions at the end of the identified fiscal years:

2011/12	\$13,577,000	10.9 months in reserve (actual)
2012/13	\$10,507,000	8.0 months in reserve
2013/14	\$7,809,000	4.9 months in reserve
2014/15	\$5,787,000	2.5 months in reserve

Board staff continues to watch the board's expenditures and revenue closely to monitor the board's fund condition. Over the years the board's authorized expenditures have exceeded

revenue resulting in an imbalance. This imbalance has become more pronounced in recent years as the board has established new personnel.

Committee Discussion

During the committee meeting, it was noted that the board needs to consider a fee increase in the very near future to ensure the financial solvency of the board. The board's fees are established in statute and in most cases, the fees in statute include a range (minimum and maximum) the board can charge. All of the board's fees are currently set at the statutory minimums. Therefore, to facilitate a fee increase if it so chooses, the board could do this through a regulation change. Such a change would result in an increase of about \$3M in revenue each year, which would be sufficient to address the imbalance, but not any future growth in resources.

In addition to the board's fund condition report, Attachment 2 also includes the following:

- Draft regulation language
- Fee comparison detailing the board's current fee structure vs. proposed fees
- Application and Renewal fee comparison with other healing arts professions in CA
- NABP Survey of Pharmacy Law pharmacist and pharmacy fee comparison with other state boards of pharmacy

3. Update on BreZE and DCA's Plans for a New Computer System

Background

As we have previously advised the board, for a number of years, the department has worked to replace and/or enhance its legacy licensing and enforcement tracking systems used by most DCA agencies that were developed in the 1980s. A few years ago, the department initiated an "I-Licensing" project which would have offered online application and renewal of licenses (a much needed relief from mail-in renewals).

Nearly two years ago, DCA's proposed Consumer Protection Enforcement Initiative also sought computer system upgrades with a new proposal for a department-wide computer system called BreZE. Once in place the new system would allow for online renewal and application processing, and will also replace the board's Consumer Affairs Systems and the Applicant Tracking System. BreZE piggybacks on the previous efforts of the initial I-Licensing system and ultimately will allow for improved services for applicants and licensees as well as provide for a more robust internal computer system.

This new system is vital to the board's operations as the current system limitations significantly impede our ability to perform efficiently. Based on the current timeline for implementation, the board is in the second phase of programs transitioning to the new system.

Previous Board Discussion

We continue to commit a significant amount of resources to this project to ensure the board's operational needs are met. The executive officer continues to serve as an executive sponsor of

this project and serves on the change control board, part of the established governance plan for this project. Throughout this process, the board has dedicated board staff, some of which have been working part-time for this project, assisting the department in documenting system requirements that meet the needs of our board as well as others through out the project.

Recent Update

Work is scheduled to begin in early February for our board as well as others slated for “Phase Two” of the implementation plan. Several key staff has been identified to work on this project. Because of the critical nature of the development and configuration phases, redirection of key staff may result in some delays in issuing licenses as well as some enforcement functions. We are working to minimize this impact.

Further, the executive officer remains a member of the executive committee overseeing the process and continues to also serve as a member of the change control board. Her role, along with those subject matter experts working with the vendor and department will ensure the appropriate functionality of the system prior to implementation. This major commitment of board resources to BreZE is justified by the board’s need for the system.

We hope to transition to this new system by fall of 2013. When an exact timeframe is available the board will begin education and outreach.

4. Reimbursement to Board Members

Attachment 3

Expenses and per diem payments to board members are provided in **Attachment 3**. These are hours and expenses claimed by board members during the indicated periods. Board members are paid for each day of a board meeting, but in accordance with board policy, may also submit hours for work performed doing additional board business.

b. FOR INFORMATION: Personnel Update

1. Board Member Vacancies

Since the last board meeting, Ramon Castleblanch was reappointment to the board by the Senate Rule Committee. The board currently has one vacancy, which is a Governor Appointment and is for a professional member representing labor.

2. Staff Changes

Below is an update on personnel changes.

Promotions/Transfers

Laura Hendricks is now serving as the administrative analyst. As part of her new role, Laura will be attending board and committee meetings and preparing minutes for the meeting. Laura will continue to coordinate board member travel and reimbursements as well.

Departures

- Tessa Miller accepted a new position with the Bureau of Automotive Repair in November.
- Inspector Cari Lee returned to the California Department of Public Health in January 2013
- Inspector Sandra Fasulo resigned in December 2012.

Recruitment is ongoing to fill the positions vacated by the transfers and departures. Regrettably our efforts are taking much longer than desired. Board staff is working with DCA Human Resources to facilitate more timely recruitment when DCA resources allow.

d. FOR INFORMATION: Second Quarter Report on the Committee's Goals for 2012/13

The strategic goals update for the Organizational Development Committee is under development by staff. They will be reviewed by the Organization Development Committee during its next meeting and presented to the board during a future meeting.

LEGEND

- A — If pharmacy ships, mails, delivers, dispenses, and/or provides prescription drugs and/or devices to state residents. (AK – Does not include devices. CO – Prescriptions into Colorado. TX – If pharmacy routinely provides such services. WI – Unless the pharmacy is licensed in this state.)
- B — Registered, not licensed.
- C — For nonresident (out-of-state) mail-order pharmacies: initial fee is \$300 and renewal fee is \$250.
- D — Set by Division; renewal fee varies.
- E — One state licensed PIC for state permit. (VA – Not required for PBM pharmacy.)
- F — If acting as PIC of a licensed out-of-state pharmacy.
- G — Odd years.
- H — State Department of Public Safety, Narcotics Enforcement Division.
- I — Even years.
- J — If a nonresident pharmacy is solely Internet-based or operates primarily as an Internet-based pharmacy, the pharmacy shall also submit proof acceptable to the Department of accreditation by NABP's VIPPS program, or other national certification program for Internet pharmacies acceptable to the Department, for each Web site and domain registration.
- K — Unless they enter state to provide pharmacy services.
- L — Licensure of nonresident pharmacists (including interns and technicians where applicable) is required when performing remote entry activities and/or approval of prescription drug orders (does not dispense prescriptions into the state.) (MA – Pursuant to a contract with a Massachusetts hospital.)
- M — Not handled by the Board of Pharmacy.
- N — \$200, community pharmacy and institutional full-time pharmacy.
- O — \$160, institutional part-time pharmacy.
- P — Issued by Texas Department of Public Safety.
